

60th Reunion Edition

Las Lomas

Class of 1964

El Caballero

*The cover art was drawn by classmate **Gary Ware** in 1984 for the cover of our 20th Reunion Edition. Gary has waived any copyright infringement violations for this 60th Reunion Edition update.*

Dedication

We were all fortunate to have spent all or part of our younger years growing up in Walnut Creek in the 50s and 60s. Whether you attended Walnut Creek School, Walnut Heights, Murwood, or Parkmead or just moved to the area, we joined together for our high school experience at Las Lomas.

It is unquestionable that we had an opportunity to receive a quality education at Las Lomas. To generalize, the teachers were well-educated, intelligent, good communicators, good coaches and most importantly, they really cared about us. We are better people because of their efforts.

This supplement is *dedicated to our Las Lomas faculty* as well as the administration and staff that supported them.

It is also *dedicated to our classmates, the Fallen Knights and* those still living, who were our support system during those years as we became young adults. We began to learn life's lessons with each other as friendships blossomed. Those friendships and relationships are the basis for the camaraderie that our class has enjoyed throughout the years, even now, 60 years later.

Thank you

Thank you to the many Reunion Committee members (and chairpersons who preceded me) who have served over the years creating the many great gatherings that we've shared to strengthen and maintain bonds of friendship.

And thank you to my wife, Janice (Del Valle '65), who has endured my long-term LL '64 obsession.

Editor's note

There is a wide variation in these bios. Some people were concise while others tended to be a bit verbose. Some have been edited to reduce length and improve readability.

It is nevertheless fascinating to see what our classmates have done (and accomplished!) and where they have been since leaving Las Lomas.

Thank you to all of you who contributed your 'history' to this project.
